Use 31 for both takeoff and landing whenever possible. With the hotel at the 13 end, there is a lot of pedestrian traffic and the dust can be a large problem. There is a run up pad on the end of 31. It can also be a little loose on the 31 end. Watch for children crossing mid-field.

## el Gallito (Hotel Serenidad)

The hotel Serenidad, a favorite gathering place for pilots. Park your airplane, walk through the gate and you are there. Features pool with swim-up bar, fishing, cave painting tours and, the world famous Saturday night "pig roast".

Master host, Don Johnson will most likely greet you upon arrival and walk you to the bar. Others will unload your aircraft and whisk your luggage to your room. Long a gathering place for the Baja Bush Pilots, we fly to the Serenidad at least twice a year for group fly-ins.

Not to be overlooked, there are several other very nice hotels downtown Mulege including the las Casitas and the Hotel Hacienda. Bicycles can be rented downtown as well as a scuba shop for diving.

It would be easy to spend three, four, or more days exploring Mulege as well as the Concepcion Bay just to the south. Although there is no beach at Mulege, there are miles of sand at Concepcion.
